PROFESSIONAL OBJECTIVE

Information Technology graduate ready to contribute my technical skills in an entry-level role while continuing to learn and develop professionally. I am adaptable, open to different areas of IT and new technologies, and willing to take on new responsibilities and challenges where I can contribute, gain hands-on experience, and grow.

TECHNICAL SKILLS

- Core Competencies: Web Development, Frontend Development, Backend Development, Mobile Development, REST API Development, Database Management, System Testing
- Programming & Development: Python, JavaScript, C#, PHP, HTML, CSS, R, SQL, Django, Django REST Framework, React, Next.js, React Native, Expo, Redux, TanStack Query, shadcn/ui, Tailwind CSS, Celery, RabbitMQ, .NET, ASP.NET Core
- Technical Tools & Systems: PostgreSQL, MySQL, GitLab, GitHub, Linux, Docker, RStudio, Figma, Cloudflare, Cloudinary, PayMongo, Supabase, Codex, OpenCode, Basic Networking, Data Analytics

PROFESSIONAL EXPERIENCE & PROJECTS

Backend Developer Intern

Iligan Light & Power, Inc | Dec 2025 – Apr 2026

- *Led backend development by building database models, REST APIs, business logic, and automated email notifications using Django, Django REST Framework, SMTP, and Celery, improving recruitment data flow.*
- *Built responsive HR management interfaces and supported testing, code reviews, and deployment preparation using Next.js, React, Redux, Tailwind CSS, shadcn/ui, GitLab, Docker, and Linux, improving workflow usability and deployment readiness.*

Full-Stack Developer

Sarig | Nov 2025 - Present

- *Building APIs and workflows for merchant and rider onboarding, marketplace ordering, delivery, and transport booking, establishing connected services across the platform.*
- *Implementing PayMongo and PostGIS while developing web and mobile workflows with Next.js, React, Expo, and React Native, enabling payment, location-based, and role-specific features.*

Backend Developer

PharmaGo | Aug 2025 - Apr 2026

- *Developed backend APIs and role-based workflows using Django and Django REST Framework, connecting medicine ordering, prescription processing, delivery coordination, and access control.*
- *Structured medicine and pharmacy data in PostgreSQL, supporting FDA-registered medicines and pharmacy-managed products across multiple pharmacies.*

EDUCATION

Bachelor of Science in Information Technology

St. Michael's College Iligan, Inc | Aug 2022 – Apr 2026

CERTIFICATIONS & AWARDS

- Certification: TOPCIT Level 2 Certificate
- Awards: Best Paper Presentation (Track 5) – RVM EMC Research Congress; Best Researcher & Best Oral Presentation – PharmaGo Capstone
